

Section 2 Assessment

Vocabulary

Match each vocabulary word with its definition.

- | | |
|--|------------------|
| ① a rock formed when other rocks are heated and squeezed | igneous rock |
| ② a rock formed from pieces of other rocks | sedimentary rock |
| ③ a rock formed when melted rock cools | metamorphic rock |

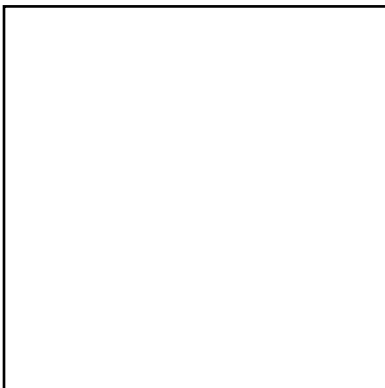

Rock Properties

- ④ What properties should you observe in a rock?

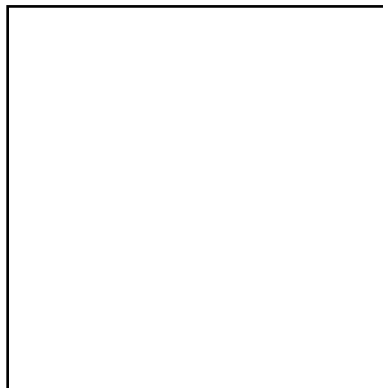

Rocks and Minerals

- ⑤ Observe the two samples without the magnifier. Then observe them with the magnifier and draw them.

Sample 1

Sample 2

- ⑥ Which sample is a rock? How can you tell?
