

# Observing Physical Weathering

- 1 What happens when the sandpaper “weathers” the pencil?

---

- 2 What happens when the eraser “weathers” the writing on the paper?

---

## “Weathering” with Chalk and Salt

Record your observations before and after stirring the salt with the chalk. In each column, describe the colors, shape, and surfaces of each material.

	Chalk	Salt
<b>Before</b>		
<b>After stirring for 5 minutes</b>		

- 3 Which is softer, chalk or salt? How can you tell?

---
