

Section 7 Assessment

Vocabulary

Write the term that correctly completes each sentence.

- 1 Rocks being broken down when they bang and rub against other rocks is _____ weathering.
- 2 Rocks being broken down when water and chemicals dissolve them is _____ weathering.

Weathering

Write C if the example is chemical weathering. Write P if the example is physical weathering.

- _____ 3 A rushing stream swirls pebbles against bedrock and forms a hole.
- _____ 4 Water seeping through limestone dissolves it and forms a cavern.

Chemical Weathering

- 5 Observe as your teacher sets up the experiment with chalk rock. Write a hypothesis.

Hypothesis:

- 6 On the back of this paper, draw your observations now, in 2 hours, in 4 hours, and tomorrow.
- 7 Do the results support your hypothesis?
