

Section 3 Assessment

Vocabulary

Use the vocabulary words to answer the following questions.

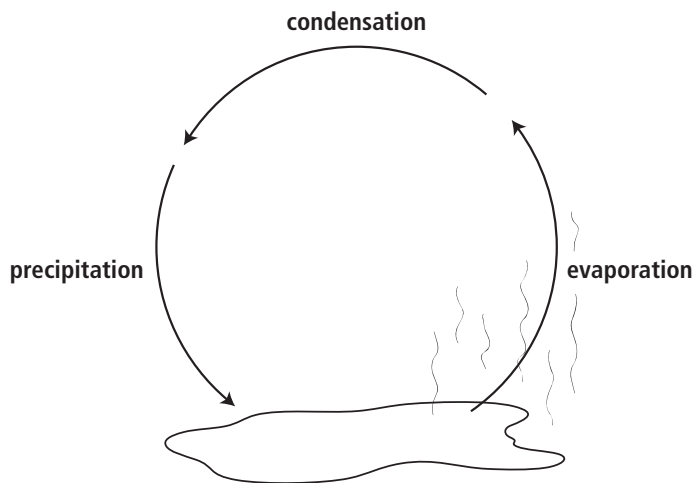

cirrus cumulonimbus cumulus nimbostratus stratus

- 1 List the three main types of clouds in order from highest to lowest altitude.

- 2 Which type of cloud often brings thunderstorms?

Clouds, Rain, and the Water Cycle

- 3 Complete the diagram of the water cycle by adding clouds and rain in the correct locations.

Making Clouds

- 4 Use cotton balls and glue on the construction paper to make models of the three main types of clouds. Arrange the clouds on the paper by altitude. Label them.
