

# Bean Seed Observations, Page 1

STUDENT RESOURCE 1.4

ACTIVITY SHEET

Every day for a week, observe and record any changes that take place in the bean seed during germination. Describe any new structures that you see.

**Start Date** \_\_\_\_\_

Day/Date	Observations
Day 1	
Day 2	
Day 3	
Day 4	
Day 5	

## On Day 5

Draw the developing roots.  
Label the primary root.

## At the end of the experiment

Draw and label the root system  
of your mature bean plant.
