

Testing for Starch

- ❶ In the first column of the chart, list each kind of food you will test.
- ❷ In the *Predictions* column, make a check mark (✓) for any food that you think contains starch.
- ❸ In the *Results* column, write the word *starch* for any food that turned blue-black with iodine.
- ❹ In the *Plant Parts* column, write the part of the plant each kind of food came from. If you do not know the plant part, use the Internet or library books to help you.

Which Foods Contain Starch?

Foods tested	Predictions	Results	Plant parts
