

A Family Newsletter

Greetings, Family!

The human body is a wonderful and complex arrangement of cells, tissues, and organs. In our next unit, "Human Body," our science class will be studying the parts of the human body and how they work. We will explore how the cell obtains the materials it needs and how body functions are related to cell activities.

For the hands-on activities in this module, we are collecting the items listed below. Can you donate any of these items? If so, we need to receive your donated materials by _____.

- | | |
|--|---|
| <input type="checkbox"/> brown paper bags | <input type="checkbox"/> food items: apples, bologna, bread, butter, cooked rice or pasta, lettuce, mayonnaise, onions, orange juice, potatoes (raw), tomatoes, tortilla chips, vegetable oil |
| <input type="checkbox"/> chicken or turkey bones, boiled clean | <input type="checkbox"/> 2 houseplants of the same kind |
| <input type="checkbox"/> door hinge | <input type="checkbox"/> plastic garbage bag |
| <input type="checkbox"/> hot pot | |
| <input type="checkbox"/> pen holder from desk set | |
| <input type="checkbox"/> cardboard tubes from paper towel roll | |
| <input type="checkbox"/> clear plastic bottle, 1-gallon size, with cap | |

Finally, we could use your help in the classroom. Do you or other family members have any particular interest or special experience with this topic? Would you be able to help with the activities? If so, please fill out the form below and have your student return it to class.

Thank you very much for your help!
