

Colored Light and Plant Growth, Page 1

- 1 Write a question about plant growth and colored light that you can test in an experiment.

- 2 Predict which plant will grow the best.

- 3 What variables did you control in the experiment?

- 4 What was the independent variable (the one thing you changed in the experiment)?

- 5 What was the dependent variable?

Colored Light and Plant Growth, Page 2

6 Record your results in the chart.

Plants	In red light	In blue light	In green light	In white light (clear bag)
Height	cm	cm	cm	cm
Color of leaves				
Appearance
