

What Lives in Dead Leaves?

STUDENT RESOURCE 6.2

ACTIVITY SHEET

- 1 Examine the organisms in the dish. First use a magnifier. Then use a toothpick to put the organisms on a microscope slide. Examine the organisms under the microscope's low power. How many different kinds of organisms did you find?

- 2 Are the organisms vertebrates or invertebrates?

- 3 Draw three different kinds of organisms that you saw.

--	--	--

- 4 What are the names of the organisms you drew? Use a library book or the Internet to find out. Write each name on the line above.
