

Section 8 Assessment

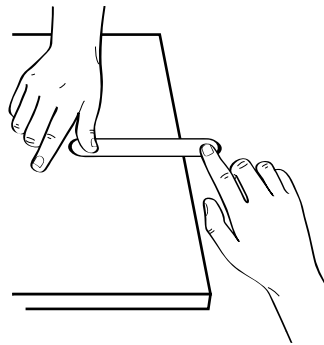

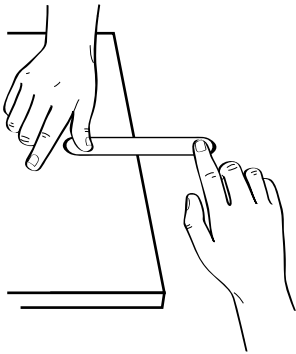

Vocabulary

Draw lines to match each word to what it means.

- | | |
|--------------------|-----------------------------------------------------|
| 1 vibration | a form of energy produced by vibrating objects |
| 2 sound | how high or low a sound is |
| 3 pitch | a quick back-and-forth movement that produces sound |
| 4 volume | how loud a sound is |

Vibrations and Sound

Use the stick at your station to create a low sound. Now use it to create a high sound. Label the pictures below "high" or "low" to show what you did to make a high sound and what you did to make a low sound.

5 _____

6 _____
