

Section 3 Assessment

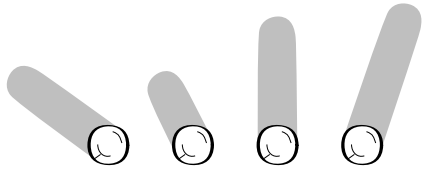

Vocabulary

- 1 What tool lets you tell time by looking at a shadow?

Short and Long Shadows

- 2 A student placed a stick in the ground on a sunny day. She traced the shadow cast by the stick four times from 10:00 AM to 3:00 PM. Circle the shadow that appeared closest to noon.

How Does the Shadow Change?

- 3 How long is a person's shadow at lunch time? How long is a person's shadow after school? Use the flashlight and pencil to find out. On the pictures below, draw the shadow at both times of day.

At lunch time

After school
