

# Section 8 Assessment

## Vocabulary

1 What is surface tension?

---

2 What causes surface tension?

---

## Surface Tension

3 Circle the drawing that shows the shape of a drop of water with more surface tension.

## Soap and Surface Tension

4 Use the dropper to make a 5-drop drop of water on a piece of waxed paper. How could you make the drop more round? How could you make it flatter? Use the materials at your station to experiment. Write a short report of your results.
