

# Like and Unlike Poles

- 1 Place the alnico magnets several inches apart. Push the green end of one magnet toward the yellow end of the other magnet.

What happens?

---

- 2 Now push the yellow end of one magnet toward the yellow end of the other magnet.

What happens?

---

- 3 Now push the green end of one magnet toward the green end of the other magnet.

What happens?

---

## Conclusion

- 4 What can you conclude about the interaction of like and unlike magnetic poles?

---

---
