

UNIT 2 The First Explorers

Find Out Start your research at your local library. Ask the librarian where you might find the library resources that you need.

1. Did explorers from Europe visit the area around your community?

2. Who were the explorers, and for what were they looking?

3. Was your local library a good source for information? Did you use other sources to learn more about the community?

4. **Critical Thinking: Synthesize** What changes did the first explorers bring to your area?
