

UNIT 1 Where Is My State?

Find Out Go to the website for the United States Geological Survey, or look up your state in an atlas to help you find its location.

1. Where is my state?

2. What other states are located in the same region of the country as your state?

3. How did you learn about your state's location? Explain the steps you took to find your answers.

4. **Critical Thinking: Analyze** Is the size and shape of your state the same or different from the states around it?
