

## UNIT 1 What Is My State Like?

**Find Out** Start your research by visiting your local library or your state's Department of Natural Resources website.

1. What kinds of plants and animals live in your state?

---

---

2. What are your state's major natural resources?

---

---

3. In addition to your state's department of natural resources website, what other sources did you use to find information?

---

---

4. **Critical Thinking: Synthesize** How do your state's natural resources affect life in your state?

---

---
