

UNIT 1 What Is My State Like?

Find Out Start your research by visiting your local library or your state's Department of Natural Resources website.

1. What kinds of plants and animals live in your state?

2. What are your state's major natural resources?

3. In addition to your state's department of natural resources website, what other sources did you use to find information?

4. **Critical Thinking: Synthesize** How do your state's natural resources affect life in your state?
