

## UNIT 1 Why Are Certain Landforms in My State?

**Find Out** Talk to a geographer and visit your local library to learn how and why different landforms developed in your state.

1. What created the major landforms in your state?

---

---

2. Why do some plants grow in your state and not in others?

---

---

3. Draw a picture of a landform located in your state, and label the different parts of the landform.
