

UNIT 4 Mining

Find Out Explore the website for your state’s government to find information about the mining industry in your state.

1. What major natural resources are mined in your state?

2. Where are your state’s mines located?

3. What sources did you use to find the answers to the questions? List your best source and explain why it was more helpful than the rest.

4. **Critical Thinking: Analyze** What products are made from the minerals mined in your state?
