Hands On: Make Solids Using Nets

Solve problems 1–6.

1. Nicky has to fold this box. When Nicky folds this box, what shape will be formed?

2. Ray drew this net. What shape will this net form?

3. This net has 4 large rectangles and 2 small rectangles. Which solid figure will it form?

4. Ellis drew this net for a cube. Explain his mistake. Then tell what the net should look like.

5. Draw a net for a square pyramid. What shapes are needed to form this figure?

6. Ken ate a bowl of cereal for breakfast. Draw the net that would form a box of cereal.
