Ways to Make Numbers

You can show 7 in different ways.
Here is one way.

\[
\begin{align*}
\text{2} + \text{5} &= \text{7} \\
\end{align*}
\]

Here is another way to show 7.

\[
\begin{align*}
\text{4} + \text{3} &= \text{7} \\
\end{align*}
\]

You can show 8 in different ways, too.

\[
\begin{align*}
\text{4} + \text{4} &= \text{8} \\
\text{3} + \text{5} &= \text{8} \\
\end{align*}
\]

Use two colors to show another way to make 7.
Complete the addition sentence.

1. 

\[
\begin{align*}
\text{2} + \text{5} &= \text{7} \\
\end{align*}
\]

Use two colors to show another way to make 8.
Complete the addition sentence.

2. 

\[
\begin{align*}
\text{4} + \text{3} &= \text{7} \\
\end{align*}
\]
