Here are four ways to write the same number.

- **Standard form:** 328,541,670
- **Word form:** three hundred twenty-eight million, five hundred forty-one thousand, six hundred seventy
- **Short word form:** 328 million, 541 thousand, 670
- **Expanded form:**
  
  \[
  300,000,000 + 20,000,000 + 8,000,000 + 500,000 + 40,000 + 1,000 + 600 + 70
  \]

Write each number in word form and short word form.

1. 612,483,125

   _______________________________________________________________________

   _______________________________________________________________________

2. 100,000,000 + 5,000,000 + 600,000 + 2,000 + 900 + 50

   _______________________________________________________________________

   _______________________________________________________________________

Write the number in standard form and expanded form.

3. 411 million, 725 thousand, 600

   _______________________________________________________________________

   _______________________________________________________________________

**Problem Solving**

4. Write two 8-digit numbers that have a 4 in the millions place, a 6 in the ten thousands place, and a 9 in the ones place.
