Make a Story Problem

1. Read the problem.

Brett picked apples and put 6 in a box.
Jan put in some, too.

2. Make a math drawing to show what happened.

3. Ring the most reasonable answer in the box.
   - There are more apples.
   - An apple is next in the pattern.
   - There are fewer apples.

4. Write your own story problem and solve.
