Choose the Operation

Add or subtract to solve.
Write the number sentence.

1. Sarah has 15 silver balloons and 28 blue balloons. How many more blue balloons are there?

   \[ 28 - 15 = 13 \text{ more blue balloons} \]

2. Jake has 32 baseball cards. Betty has 35 baseball cards. How many baseball cards do they have in all?

   \[ \text{32} + \text{35} = \text{67 baseball cards in all} \]

3. On Saturday Karen takes 14 pictures. On Sunday she takes 21 pictures. How many pictures does she take on both days?

   \[ 14 + 21 = 35 \text{ pictures} \]

4. Larry sees 25 birds at the park. Kendra sees 37 birds. How many more birds does Kendra see?

   \[ 37 - 25 = 12 \text{ more birds} \]
