More, Fewer, and Same

Find the set that answers the question.

1. There are 6 clowns. Each needs a hat. Circle the set with the same number of hats.

2. One of the clowns gets sick. Now the clowns need 1 fewer hat. Draw a line under the set with 1 fewer hat.

3. There are 4 children who want to rent bicycles. Which set of bicycles can the children rent? Circle the set with the same number.

4. There is 1 more child who wants to rent a bicycle. Which set of bicycles should the children rent now? Draw a line under the set with 1 more bicycle.

Draw or write to explain.
