Estimate Sums

The nearest 10 is a number that ends in 0.
Some nearest tens are: 10, 20, 30, 40, 50

When you **round** a number to its nearest 10, you change the number to a number that ends in 0.

17 is nearer to 20 than to 10. You can round 17 to 20. 20 is greater than 17, so you round **up**.

13 is nearer to 10 than to 20. You can round 13 to 10. 10 is less than 13, so you round **down**.

Write **up** or **down** to complete each sentence.

1. When we round 28 to 30, we round _________.
2. When we round 21 to 20, we round _________.
3. When we round 22 to 20, we round _________.
4. When we round 29 to 30, we round _________.
5. When we round 26 to 30, we round _________.
6. When we round 23 to 20, we round _________.
