Look for the Patterns

Use the hundred chart.

1. Look at the shaded numbers. Look at the circled numbers. What patterns do you see?

   __________________________________________
   __________________________________________
   __________________________________________

2. What patterns do you notice about the circled numbers?

   __________________________________________
   __________________________________________
   __________________________________________

3. Color to make a pattern of your own. Write a sentence about your pattern.
