Choose the Operation

Choose the operation. Write + or –. Then solve.

1. Lee’s family drives to Dallas. They drove 342 miles on the first day and 261 miles on the second day. How many more miles did they drive on the first day?

   \[342 \bigcirc 261 = \_\_\_\_\_\_\text{ miles}\]

2. Kim hiked 250 miles last year. She hiked 183 miles this year. How many miles did Kim hike in all?

   \[250 \bigcirc 183 = \_\_\_\_\_\_\text{ miles}\]

3. Martin collected 147 shells at the beach. Sara collected 252 shells. How many more shells did Sara collect?

   \[252 \bigcirc 147 = \_\_\_\_\_\_\text{ shells}\]

Test Prep

Fill in the \(\bigcirc\) for the correct answer.

4. Which number sentence tells how many miles it is from Mountain Village to River Town?

   \(\bigcirc\) \(479 + 243 = 722\) \hspace{1cm} \(\bigcirc\) \(356 - 243 = 113\)

   \(\bigcirc\) \(479 + 356 = 835\) \hspace{1cm} \(\bigcirc\) \(795 - 479 = 316\)
