Mental Math: Subtract Tens

The graph shows how many markers of each color are in the school supply room. Use the graph and mental math to answer the questions.

1. Ms. Hanley takes 20 red markers for her class. Now how many red markers are left in the supply room?
   ______ red markers

2. How many fewer blue markers are there than yellow markers?
   ______ blue markers

3. The art teacher needs 40 orange markers. He takes them from the supply room. What subtraction fact will help you find the answer?
   ______ – ______

   Now how many orange markers are left in the supply room?
   ______ orange markers
