Solve the problems. Use Workmat 3 with □□□□□□□□□□□□□□□□ and □□□□□□□□□□□□□□□□.

Trading cards come in packs of 10. Rudy has 4 packs of trading cards and 3 extra cards. Jimmy has the same number of cards, but he only has 3 packs of 10. How many of his cards are extra cards?

1. Greta buys 6 packs of 10 sheets of writing paper and has 4 extra sheets at home. Marta has the same amount of writing paper, but 14 of her sheets are not in a pack. How many packs does Marta have?

2. Markers come packed 10 to a box. Jake gets 5 boxes and 5 extra markers. Leon has the same number of markers as Jake, but he only has 4 boxes. How many of his markers are not in boxes?
