Hours, Days, Weeks, and Months

Draw or write to explain.

1. It takes Ramon 1 week to paint the doghouse. It takes him 10 days to teach the dog to roll over. Which activity takes longer?

2. Alison’s birthday will be in 3 weeks. Matt’s birthday will be in 1 month. Whose birthday will be first?

3. Juan goes to sleep-away camp for the whole summer. Circle the amount of time that he might be at camp.
   - 2 weeks
   - 2 days
   - 2 months

4. How many hours are in 2 days?
   - _____ hours
