Time Zones

Earth is divided into 24 time zones—1 for each hour of the day. All the people who live in a time zone use the same clock time. The chart below shows the six time zones in the United States.

<table>
<thead>
<tr>
<th>Eastern</th>
<th>Central</th>
<th>Mountain</th>
<th>Pacific</th>
<th>Alaska</th>
<th>Hawaii-Aleutian</th>
</tr>
</thead>
<tbody>
<tr>
<td>12 noon in Atlanta, Georgia</td>
<td>11:00 A.M. in Dallas, Texas</td>
<td>10:00 A.M. in Denver, Colorado</td>
<td>9:00 A.M. in San Diego, California</td>
<td>8:00 A.M. in Juneau, Alaska</td>
<td>7:00 A.M. in Honolulu, Hawaii</td>
</tr>
</tbody>
</table>

Use the time zone clocks above to find each correct time.

1. It is 6:25 A.M. in San Diego. What time is it in
   - Dallas? ______________
   - Atlanta? ______________

2. It is 4:05 P.M. in Honolulu. What time is it in
   - Denver? ______________
   - Atlanta? ______________

3. It is 3:10 P.M. in Atlanta. What time is it in
   - Juneau? ______________
   - Honolulu? ______________

4. It is 11:50 A.M. in Juneau. What time is it in
   - Denver? ______________
   - Honolulu? ______________
