Customary Units of Weight

You can use customary units to measure weight.

Use ounces to measure the weight of things that are very light.

A slice of cheese weighs about 1 ounce.

Use pounds to measure the weight of things that are heavy.

A brick of cheese weighs about 1 pound.

Choose the unit you would use. Write ounce or pound.

1. [Image of a ring]
   - ounce

2. [Image of a kangaroo]
   - pound

3. [Image of a potato]
   - ounce

4. [Image of a motorcycle]
   - pound

5. [Image of a truck]
   - pound

6. [Image of baby food]
   - ounce

7. [Image of a penny]
   - ounce

8. [Image of a person]
   - ounce

9. [Image of a pen]
   - ounce

Use with text pages 372–374.
