Reasonable Answers

When you check your work, always make sure that your answer is reasonable.

A reasonable answer is one that seems possible. It would be within the logical range of answers.

This car has two front seats and one back seat.

1. Would it be reasonable to fit 12 people in that car?

2. What is a reasonable number of people to fit in that car?

Circle the answer that seems reasonable.

3. Calvin rode his bike 2 miles to the grocery store. He bought some bread and milk, and then rode 2 miles back home. It took him around (15 minutes / 1 hour / 10 hours)

4. Miko went to see a movie in the theater. The movie lasted (15 minutes / 45 minutes / 100 minutes).

5. Raya’s brother earns $7.50 an hour at his full-time job. His weekly paycheck is about ($100 / $300 / $750).

6. Juana washed all the windows at her house. Each side of the house has between 6 and 9 windows. She washes about (10 / 30 / 90) windows.
