Problem-Solving Strategy: Find a Pattern

Use a pattern to solve each problem.

1. Draw a tessellation using only regular hexagons and the colors blue and red.

2. Draw a tessellation using only equilateral triangles and the colors red and yellow.

3. Draw a tessellation using only squares and the colors blue and green.

4. Draw a tessellation using only squares and equilateral triangles.

5. Draw a tessellation using only regular hexagons and equilateral triangles.
