Graph Ordered Pairs of Integers

On the coordinate plane, positive numbers are right and up. Negative numbers are left and down.

- A is at (2, 2). Both numbers are positive.
- B is at (-2, 2). The x-coordinate is negative and the y-coordinate is positive.
- C is at (-2, -2). Both numbers are negative.
- D is at (2, -2). The x-coordinate is positive and the y-coordinate is negative.

Find, mark, and label the following points on the coordinate grid.

1. A (5, 6)
2. B (-3, 4)
3. C (-1, -1)
4. D (5, -2)
5. E (0, 6)
6. F (-4, 0)
7. G (0, 0)
8. H (0, -3)

Writing Math An ordered pair is below the x-axis and to the left of the y-axis. What do you know about the two numbers in the pair?
