What We’re Learning
During the next few weeks, our math class will be learning about data and graphing.
You can expect to see work that provides practice collecting and recording data and reading tables and graphs. There will also be work that provides practice with making tables and graphs.
As we learn about data and graphing, you may wish to use the following as a guide.

Vocabulary
► bar graph Uses bars of different lengths to show data.
► mode The number that occurs most often in a data set.
► pictograph Uses pictures to show data.
► range The difference between the greatest number and the least number in a data set.
► tally A way to keep track of what has been counted.

Guiding Your Child
A tally mark is written for each one that is counted.

1 = || 2 = |||| 3 = ||||| 4 = |||||| 5 = |||||||

Ways We Get to School

<table>
<thead>
<tr>
<th>Bus</th>
<th>Car</th>
<th>Walk</th>
<th>Bike</th>
</tr>
</thead>
<tbody>

</tbody>
</table>

Number of Children

0 1 2 3 4 5 6

This bar graph shows that there are 6 children who walk to school.

Sincerely,
Your child’s teacher
