Let me tell you about Crimini Park.

There is a water slide. There is a trampoline. You can see what I’m getting to. This place is fun!

Crimini Park needs more activities for little kids. It is great for someone my age, but my little brother and sister don’t have enough to do there. Therefore, my parents will not take me there enough. That is why I am asking you to write to the owners of Crimini Park and ask them to make this change.

This park would get a lot more business if they had little rides that aren’t scary. My brother and sister love that kind of ride. Maybe even a petting zoo full of fuzzy animals would be a good idea. My little brother and sister can drive my parents crazy when they whine or get bored. We spend too much time doing what my brother and sister want to do, and not enough time doing what I want to do.

I think a petition to the park owners might help. Phone calls and letters are also a good idea. Think of how much more money Crimini Park would make if it had ways of making little kids happy.

I hope you share my view. Please help me convince the owners of Crimini Park to create a better place for everyone.
