Pretend that for one day you are able to see into the future. Now write a story for your classmates, telling what happened. Be sure your story has a beginning, a middle, and an end.

This is about looking into the future.
I had to think fast. This was because I was in the future. It is not like the present. It was hard to get used to.
I was in the mall of the future. There was different stuff in the stores. I did not recognize anything. I tried to get an ice cream. No one knew what it was. Cows were extinct. I thought this was sad.
Have you ever made homemade ice cream? It is better than in the stores. You can put in different flavorings. We have an ice cream maker. It is not hard to use.
In the future I had weird clothing on. I had to get used to it.
In the future people also had weird hairstyles. They looked funny. They made me laugh out loud. Yesterday Jeff told me a joke about his little brother. Boy, was it funny!
In the future I found out that bicycles went faster. People didn’t use cars anymore. The bicycles were really cool.
That’s about it. I didn’t see anything else in the future.
