Who’s Who?

Objective
To use subject, object, and possessive pronouns correctly

Players
Any number, divided into 3 teams

Materials
15 index cards, open sentences, chalkboard and chalk

Before playing
• Choose one person to be the leader and scorekeeper.
• Using the pronouns shown, make a set of pronoun cards with one pronoun on each card. Shuffle the cards and place them facedown in a stack.

How to play
1. The leader writes the first open sentence (shown above) on the chalkboard.
2. A player from Team A takes a pronoun card from the stack, writes it on a blank in the sentence, and puts the card on the bottom of the pile. If the pronoun is not used correctly, the leader erases it. If it is used correctly, Team A scores a point, and the pronoun stays in the sentence.
3. Next, a player from Team B draws a card. The player can score a point either by saying correctly that the pronoun cannot be used or by using it correctly in one of the remaining blanks. The player then returns the card to the stack.
4. Team C takes a turn, and the round continues until all the blanks in the sentence are filled.
5. Round 2 begins when the leader writes the second open sentence on the board. A different team begins each round.

Scoring
The team with the most points at the end of three rounds wins the game.
