Adjective Art

Objective
To write sentences that use adjectives

Players
2–4

You will need
Paper, pencils, magazines that include interesting photographs, scissors

Before playing
• Choose one person to be timekeeper and judge.
• Take about five minutes for each player to choose and cut out a picture that includes many details.

How to play
1. Players place their pictures on a table where all players can see them.

2. Players have ten minutes to write sentences that describe and compare the pictures, using as many adjectives as possible and underlining each one. (Do not underline a, an, the, this, that, these, or those.)

3. When time is up, players exchange papers and count up the underlined adjectives. Players may challenge each other’s adjectives for correct spelling and use. The judge decides whether an adjective is correct, using a dictionary as needed.

Scoring
A player gets one point for each correctly used adjective, one extra point if the adjective compares, and two extra points if it is a proper adjective. The player with the most points wins.
