How to make: Title the bulletin board **Word Pictures**. Give each student a square of blank paper. Provide scraps of colored paper, cloth, yarn, crayons, and markers.

How to use: Have each child choose a Basic Word from the unit you have just studied. Make sure that the same word has not been chosen more than once. Ask children to illustrate the word they chose by designing the letters to match the word’s meaning. Allow time for children to experiment on scrap paper before choosing a final design. Place the completed words in rows on the bulletin board. Repeat this activity at the end of each unit in the cycle.

Use: For use with Units 19–23.
