How to make: Cover the bulletin board with dark blue paper to represent the night sky. Then decorate it with a moon and clouds. Have each student cut a large star out of yellow or white construction paper. Supply a star pattern so all the stars will be the same size.

How to use: Ask each student to select any three Basic Words from Units 7–11 to include in a short poem. (The poems do not have to rhyme.) Tell students to write the three words on the back of their stars. After students write their poems, have them copy the poems on the front of their stars. Tack the stars to the bulletin board. Ask students to find the Basic Words in each other’s poems.
