Learn About It
In this unit, your child will learn:
• about different kinds of land and water
• about neighborhoods
• about using natural resources
• how the weather and seasons change

Here is one way you can help your child learn:

Family Activity
Land and Water Booklet  Discuss the different kinds of land and water in our world. Work together with your child to create a booklet illustrating landforms and bodies of water near your home. Help your child create a label for each picture.
